SECOND SUBSTITUTE HOUSE BILL NO. 2528 was read the second time.

Representative Ramos moved the adoption of the striking amendment (I278).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that the intergovernmental panel on climate change (IPCC) released a report in 2019 entitled "IPCC special report on climate change, desertification, land degradation, sustainable land management, food security, and greenhouse gas fluxes in terrestrial ecosystems" that provides guidance relating to how natural and working lands can be utilized to assist with a global climate response strategy. In addition, the food and agricultural organization of the United Nations issued a report in 2016 entitled "forestry for a low-carbon future" with specific recommendations for integrating forests and wood products in climate change strategies. Recommendations from these reports are critical as Washington develops its own climate response and charts how the state can use its forestland base and vibrant forest products sector as part of its contribution to the global climate response.

(2) The legislature further finds that the 2019 intergovernmental panel on climate change report identifies several measures where sustainable forest management and forest products may be utilized to maintain and enhance carbon sequestration. These include increasing the carbon sequestration potential of forests and forest products by maintaining and expanding the forestland base, reducing emissions from land conversion to nonforest uses, increasing forest resiliency to reduce the risk of carbon releases from disturbances such as wildfire, pest infestation, and disease, and applying sustainable forest management techniques to maintain or enhance forest carbon stocks and forest carbon sinks, including through the transference of carbon to wood products.

(3) The legislature further finds that the food and agricultural organization of the United Nations reports similar recommendations, with a focus on forest management tools that increases the carbon density in forests,

increases carbon storage out of the forest in harvested wood products, utilizes wood energy, and suppresses forest disturbances from fire, pests, and disease.

Sec. 2. RCW 70.235.005 and 2008 c 14 s 1 are each amended to read as follows:

(1) The legislature finds that Washington has long been a national and international leader on energy conservation and environmental stewardship, including air quality protection, renewable energy development and generation, emission standards for fossil-fuel based energy generation, energy efficiency programs, natural resource conservation, sustainable forestry and the production of forest products, vehicle emission standards, and the use of biofuels. Washington is also unique among most states in that in addition to its commitment to reduce emissions of greenhouse gases, it has established goals to grow the clean energy sector and reduce the state's expenditures on imported fuels.

(2) The legislature further finds that Washington should continue its leadership on climate change policy by creating accountability for achieving the emission reductions established in RCW 70.235.020, participating in the design of a regional multisector market-based system to help achieve those emission reductions, assessing other market strategies to reduce emissions of greenhouse gases, maintaining and enhancing the state's ability to continue to sequester carbon through natural and working lands and forest products, and ensuring the state has a well trained workforce for our clean energy future.

(3) It is the intent of the legislature that the state will: (a) Limit and reduce emissions of greenhouse gas consistent with the emission reductions established in RCW 70.235.020; (b) minimize the potential to export pollution, jobs, and economic opportunities; ~~((and))~~ (c) support industry sectors that can act as sequesterers of carbon; and (d) reduce emissions at the lowest cost to Washington's economy, consumers, and businesses.

(4) In the event the state elects to participate in a regional multisector market-based system, it is the intent of the legislature that the system will become effective by January 1, 2012,

after authority is provided to the department for its implementation. By acting now, Washington businesses and citizens will have adequate time and opportunities to be well positioned to take advantage of the low-carbon economy and to make necessary investments in low-carbon technology.

(5) It is also the intent of the legislature that the regional multisector market-based system recognize Washington's unique emissions and sequestration portfolio, including ((the state's)):

(a) The state's hydroelectric system((, the));

(b) The opportunities presented by Washington's abundant forest resources and the associated forest products industry, along with aquatic and agriculture land((, the)) and the associated industries; and ((the))

(c) The state's leadership in energy efficiency and the actions it has already taken that have reduced its generation of greenhouse gas emissions and that entities receive appropriate credit for early actions to reduce greenhouse gases.

(6) If any revenues, excluding those from state trust lands, that accrue to the state are created by a market system, they must be used to further the state's efforts to achieve the goals established in RCW 70.235.020, address the impacts of global warming on affected habitats, species, and communities, promote and invest in industry sectors that act as sequesterers of carbon, and increase investment in the clean energy economy particularly for communities and workers that have suffered from heavy job losses and chronic unemployment and underemployment.

NEW SECTION. Sec. 3. A new section is added to chapter 70.235 RCW to read as follows:

(1)(a) Washington's existing forest products sector, including public and private working forests and the harvesting, transportation, and manufacturing sectors that enable working forests to remain on the land and the state to be a global supplier of forest products, is, according to a University of Washington study analyzing the global warming mitigating role of wood products from Washington's private forests, an industrial sector that currently operates as a significant net

sequesterer of carbon. This value, which is only provided through the maintenance of an intact and synergistic industrial sector, is an integral component of the state's contribution to the global climate response and efforts to mitigate carbon emissions.

(b) Satisfying the goals set forth in RCW 70.235.020 requires supporting, throughout all of state government, consistent with other laws and mandates of the state, the economic vitality of the sustainable forest products sector and other business sectors capable of sequestering and storing carbon. This includes support for working forests of all sizes, ownerships, and management objectives, and the necessary manufacturing sectors that support the transformation of stored carbon into long-lived forest products while maintaining and enhancing the carbon mitigation benefits of the forest sector, sustaining rural communities, and providing for fish, wildlife, and clean water, as provided in chapter 76.09 RCW. Support for the forest sector also ensures the state's public and private working forests avoid catastrophic wildfire and other similar disturbances and avoid conversion in the face of unprecedented conversion pressures.

(c) It is the policy of the state to support the contributions of all working forests and the synergistic forest products sector to meet the state's climate response. This includes the landowners, mills, bioenergy, pulp and paper, and related harvesting and transportation infrastructure which are necessary for forestland owners to continue the rotational cycle of carbon capture and sequestration in growing trees and allows forest products manufacturers to store the captured carbon in wood products. These activities maintain and enhance the forest sector's role in mitigating a significant percentage of the state's carbon emissions while providing other environmental and social benefits, such as supporting a strong rural economic base. Furthermore, it is the policy of the state to support the participation of working forests in current and future carbon markets, strengthening the state's role as a valuable contributor to the global carbon response while supporting one of its largest manufacturing sectors.

(d) It is further the policy of the state to utilize carbon accounting land use, land use change, and forestry reporting principles consistent with established reporting guidelines, such as those used by the intergovernmental panel on climate change and the United States national greenhouse gas reporting inventories.

(2) Any state carbon programs must support the policies stated in this section and recognize the forest products industry's contribution to the state's climate response.

NEW SECTION. **Sec. 4.** A new section is added to chapter 43.30 RCW to read as follows:

(1) The forest and forest products carbon account is created in the custody of the state treasurer. All specified state funding must be deposited into the account, including appropriations from the general fund, the capital budget, and any specified revenues from other sources, including policies that establish a price on carbon or related federal grant programs. The department may also deposit into the account any grants, gifts, or donations to the state for purposes consistent with the allowable uses of the account. Expenditures from the account may be used only for department administrative costs and grants consistent with this section. Only the commissioner or the commissioner's designee may authorize expenditures from the account.

(2) The department shall use all moneys in the forest and forest products carbon account, less reasonable administrative overhead costs, as grants to any private landowner, organization that works with private landowners, nonprofit organization, local government, Indian tribe, or state land managing agency to advance the state's carbon sequestration goals outlined in section 3 of this act. All grant awards must be the result of a competitive process, designed by the department, that seeks to leverage the carbon sequestration and storage benefits of the investment. Allowable grant project types include, but are not limited to, funding:

(a) For reforestation of forestlands after a wildfire or other disaster for which the landowner was not responsible;

(b) For afforestation projects to return lands capable of supporting trees to forestlands;

(c) To plant sustainable forested buffers and remove nonnative invasive species along otherwise nonforested fish bearing streams; and

(d) For urban forest restoration or urban tree planting.

(3) The department must manage the forest and forest products carbon account in cooperation with the department of agriculture and state conservation commission and, when appropriate, utilize the conservation district infrastructure to identify potential grantees and distribute and oversee grant funds.

(4) In addition to administrative costs and grants as provided in this section, the department may also use funds in the forest and forest products carbon account to conduct an opportunity analysis of land in Washington to determine how many acres of deforested land could be returned to forestlands without decreasing food production."

Representative Tarleton moved the adoption of the striking amendment (1249).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** The legislature finds that Washington state will continue to see significant population growth, with the most recent office of financial management forecasts estimating nearly two million more people by the year 2040. In the face of this dramatic growth, the legislature finds that it is more important than ever to help preserve, maintain, and enhance local parks, trails, and open spaces that are key contributors to the state's quality of life.

The legislature further finds that local parks and recreation agencies confronted with growth, impacted heavily by the great recession, and with limited resources are seeing a rapidly growing maintenance backlog that mirrors the experience of Washington state parks.

The legislature also finds that local parks and recreation agencies are dealing with a tremendous growth in the number of sports participants and a corollary of sharp increases in demand for local athletic fields, including a nearly three hundred percent increase in adult sports participation being experienced by one eastern Washington community.

Therefore, it is the intent of the legislature to establish additional statutory tools to help local parks and recreation agencies better address maintenance backlogs, preserve quality open spaces, and expand and improve athletic fields to accommodate the influx of adult and youth sports participants who are vying for use of those fields.

NEW SECTION. **Sec. 2.** A new section is added to chapter 82.14 RCW to read as follows:

(1) The legislative authority of a city or a county, the governing body of a metropolitan park district under chapter 35.61 RCW, or the governing body of a park and recreation district under chapter 36.69 RCW may submit an authorizing proposition to voters at a special or general election and, if the proposition is approved by a majority of persons voting, impose a sales and use tax in accordance with the terms of this chapter. The title of the ballot measure

must clearly state the purposes for which the proposed sales tax will be used.

(2) The tax authorized in this section is in addition to any other taxes authorized by law and must be collected from those persons who are taxable by the state under chapters 82.08 and 82.12 RCW upon the occurrence of any taxable event within the taxing area. The rate of tax equals one-tenth of one percent of the selling price in the case of a sales tax, or value of the article used, in the case of a use tax. The tax may be imposed only within an existing city, county, metropolitan park district, or park and recreation district boundary.

(a) If both a county and a city within the boundaries of the county exercise the authority provided in this section, the city must impose the excise tax within its incorporated boundaries, and the county must impose the excise tax within the unincorporated areas.

(b) If both a county and a metropolitan park district or park district within the boundaries of the county exercise the authority provided in this section, the metropolitan park district or park district must impose the excise tax within its incorporated boundaries, and the county must impose the excise tax within the unincorporated areas.

(c) If both a city and a metropolitan park district or park district within the boundaries of the county exercise the authority provided in this section, the metropolitan park district or park district must impose the excise tax within its incorporated boundaries, and the city must impose the excise tax within its incorporated areas.

(d) If multiple agencies within the same service area gain approval by voters to exercise the authority provided in this section, they are directed to enter into an interlocal agreement pursuant to chapter 39.34 RCW to determine how to ensure the sales tax in any given service area does not exceed the rate in this subsection (2) and how to distribute the collections among the jurisdictions.

(3) The moneys collected under this section must be used for the purpose of acquiring, constructing, improving, providing, and funding park maintenance and improvement within the taxing area.

(4) Except as provided in subsection (5) of this section, the tax may not be

imposed for a period exceeding ten years. The tax, if not imposed under the conditions of subsection (5) of this section, may be extended for a period not exceeding ten years with an affirmative vote of the voters voting at the election.

(5) The voter-approved sales tax initially imposed under this section after July 1, 2020, may be imposed for a period exceeding ten years if the moneys received under this section are dedicated for the repayment of indebtedness incurred in accordance with the requirements of this section.

(6) Money received from the tax imposed under this section must be spent in accordance with the requirements of this section and the district may deduct no more than three percent of the tax collected for administration and collection of expenses incurred by it.

(7) To carry out the purposes of this section, the entity imposing the tax has the authority to issue general obligation or revenue bonds within the limitations now or hereafter prescribed by the laws of this state, for a term not to exceed twenty years, and may use, and is authorized to pledge, the moneys collected for repayment of such bonds."

(a) The committee, with the assistance of department of natural resources' personnel, must approximately quantify the areas in the state that are not contained within an established fire district nor subject to a planned fire response and make recommendations as to how these areas could be protected as well as a source of funding for any recommended activities. In doing so, the committee must, in time for inclusion in the December 31, 2018, status report: Review the relevant recommendations contained in the joint legislative audit and review committee's 2017 final report on fees assessed for forest fire protection; analyze and develop recommendations on potential administrative and legislative actions including, for example, the process proposed in chapter . . . (Substitute Senate Bill No. 6575), Laws of 2018; and consult with any relevant stakeholders, as deemed necessary by the committee, that are not represented on the committee.

(b) The committee must examine the value of community programs that educate homeowners and engage in preventive projects within wild fire risk communities, such as firewise, and make recommendations on whether these programs should be advanced, and if so, how, including potential sources of ongoing funding for the programs.

(c) The committee must also develop plans to help protect non-English speaking residents during wildfire emergencies. The committee may enlist the assistance from the state ethnic and

diversity commissions or any other organizations who have expertise in public outreach to non-English speaking people.

(a) The committee, with the assistance of department of natural resources' personnel, must map areas of the state east of the crest of the Cascade mountains that are not within an established fire protection district, nor subject to a planned wildland fire response.

(b) The committee, through consultation with landowners, local fire protection districts, wildfire protection agencies, and other interested parties, must identify and make recommendations as to which methods of protection may be best suited for these areas when considering values at risk, including wildlife habitat, available response resources, and geography in the area. Methods of protection may include, but are not limited to, annexation by adjacent fire protection districts, creation of new fire protection districts, and the broadening of the jurisdiction of the department of natural resources.

(c) The committee must make recommendations on the appropriate level of training and the personal protective equipment standards for rangeland fire protection associations.

(d) The committee must make an estimate of the costs to establish and maintain rangeland fire protection associations. In addition, the committee must make recommendations for

appropriate fees to support the various identified methods of protection, including increasing fire protection district levies and fees collected by the department of natural resources.

(1) Beginning July 1, 2020, a manufacturer of class B firefighting foam may not manufacture, knowingly sell, offer for sale, distribute for sale, or distribute for use in this state class B firefighting foam to which PFAS chemicals have been intentionally added.

(2) (a) The restrictions in subsection (1) of this section do not apply to any manufacture, sale, or distribution of class B firefighting foam where the inclusion of PFAS chemicals are required by federal law, including but not limited to the requirements of 14 C.F.R. 139.317, as that section existed as of January 1, 2018.

(b) In the event that the requirements of 14 C.F.R. Sec. 139.317 or other applicable federal regulations change after January 1, 2018, to allow the use of alternative firefighting agents that do not contain PFAS chemicals, then ~~((the department may adopt rules that restrict PFAS chemicals for the manufacture, sale, and distribution of firefighting foam for uses that are addressed by the federal regulation))~~ as of the effective date of that change, the department shall publish a finding to that effect in the Washington State Register and submit this finding to the appropriate committees of the house of representatives and the senate. (iii) A report on the progress being made by the operator of the chemical plant, terminal, or refinery to transition to use of firefighting foam at the facility that does not contain intentionally added PFAS chemicals; and

(iv) An explanation of how all releases of firefighting foam will be fully contained on site and how existing containment measures will not allow firewater, wastewater, runoff, and other wastes to be released to the environment including, but not limited to, soils, groundwater, waterways, and stormwater.

(c) Nothing in this section prohibits an oil refinery or terminal from providing class B firefighting foam in the form of mutual aid to another

(ii) Adoption of the resolution of intent and legislation to authorize the tax requires simple majority approval of the enacting legislative authority.

~~((iii) If a county or city has not adopted a resolution of intent in accordance with the terms of this section, the county or city may not authorize, fix, and impose the tax.~~

~~(3))~~ (4) The tax imposed under this section must be deducted from the amount of tax otherwise required to be collected or paid to the department of revenue under chapter 82.08 or 82.12 RCW. The department must perform the collection of such taxes on behalf of the county or city at no cost to the county or city.

~~((4))~~ (5) By ~~((December 31, 2019, or within thirty days of a))~~ January 1, 2021, for every county or city

The annual maximum must be calculated as follows:

(a) The annual maximum amount for a participating county equals the taxable retail sales within the unincorporated area of a county, within the nonparticipating cities, and within the participating cities without a qualifying local tax, in state fiscal year 2019 multiplied by the tax rate imposed under this section. ((If a county imposes a tax authorized under this section after a city located in that county has imposed the tax, the taxable retail sales within the city in state fiscal year 2019 must be subtracted from the taxable retail sales within the county for the calculation of the maximum amount)) The annual maximum amount for a participating county does not include the taxable retail sales within the participating cities with a qualifying local tax within the county; and

(b) The annual maximum amount for a participating city equals the taxable retail sales within the city in state fiscal year 2019 multiplied by the tax rate imposed under subsection ~~((4))~~ (3) of this section.

~~((5))~~ (6) By June 30, 2022, the department must calculate a final annual maximum amount of tax distributions for each county and city authorizing the tax under this section using the method in subsection (5) (a) and (b) of this section. The department must also assign the authorized tax rate as provided in subsection (3) (c) of this section.

(7) (a) The tax must cease to be distributed to a county or city for the remainder of any fiscal year in which the amount of tax exceeds:

(i) Until June 30, 2022, the preliminary annual maximum amount calculated in subsection ~~((4))~~ (5) of this section; and

(ii) Beginning July 1, 2022, the final annual maximum amount calculated in subsection (6) of this section.

(b) The department must remit any annual tax revenues above the annual maximum to the state treasurer for deposit in the general fund. Distributions to a county or city meeting the annual maximum amount must resume at the beginning of the next fiscal year.

((46)) (8)(a) If, when the tax is first imposed, a county has a population greater than four hundred thousand or a city has a population greater than one hundred thousand, the moneys collected or bonds issued under this section may only be used for the following purposes:

(i) Acquiring, rehabilitating, or constructing affordable housing, which may include new units of affordable housing within an existing structure or facilities providing supportive housing services under RCW 71.24.385; or

(ii) Funding the operations and maintenance costs ((of new units)) of affordable or supportive housing including, but not limited to, staffing necessary for daily operations of permanent supportive housing.

(b) If, when the tax is first imposed, a county has a population of four hundred thousand or less or a city has a population of one hundred thousand or less, the moneys collected under this section may only be used for the purposes provided in (a) of this subsection or for providing rental assistance to tenants.

((47)) (c) Administrative costs of the county or city associated with administering this section may not exceed six percent of the annual tax distributed to the jurisdiction under this section.

(9) The housing and services provided pursuant to subsection ((46)) (8) of this section may only be provided to persons whose income, at each required income certification or recertification, is at or below sixty percent of the median household income of the ((county or city)) standard metropolitan statistical area within which the county, city, or town imposing the tax is located.

((48)) (10) In determining the use of funds under subsection ((46)) (8) of this section, a county or city must consider the income of the individuals and families to be served, the leveraging of the resources made available under this section, and the housing needs within the jurisdiction of the taxing authority.

((49)) (11)(a) To carry out the purposes of this section including, but not limited to, financing loans or grants to nonprofit organizations or public housing authorities, the legislative authority of the county or city imposing the tax has the authority to issue general obligation or revenue bonds within the limitations now or hereafter prescribed by the laws of this state, and may use, and is authorized to pledge, the moneys collected under this section for repayment of such bonds.

(b) However, a county may not pledge for repayment of such bonds any moneys collected from retail sales within the limits of a participating city:

(i) Before July 28, 2020; or

(ii) Before June 30, 2022, within the limits of a participating city that has adopted a notice of intent under subsection (2) of this section.

((410-A)) (12) To carry out the purposes of this section, a county or city may enter into a contract or an interlocal agreement, or utilize an existing contract or interlocal agreement, in accordance with chapter 39.34 RCW with one or more ((counties, cities, or public housing authorities in accordance with chapter 39.34 RCW)) public entities or nonprofit organizations. The contract or interlocal agreement may include, but is not limited to, pooling the tax receipts received under this section, pledging those taxes to bonds issued by one or more parties to the agreement, and allocating the proceeds of the taxes levied or the bonds issued in accordance with such contract or interlocal agreement and this section. The contract or interlocal agreement must include a requirement, or otherwise ensure through contractual obligations, that the housing or services provided with moneys collected under this section comply with the use restrictions in subsection (8) of this section and the income restrictions in subsection (9) of this section.

((411)) (13) Counties and cities imposing the tax under this section must report annually to the department of commerce on the collection and use of the revenue. Counties and cities that have pooled funds may submit joint reports on their collective activities. The department of commerce must adopt rules prescribing content of such reports. By December 1, 2019, and annually

thereafter, and in compliance with RCW 43.01.036, the department of commerce must submit a report annually to the appropriate legislative committees with regard to such uses.

Representative Pettigrew moved the adoption of the striking amendment (1389).

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that additional efforts are necessary to reduce barriers to entry to the cannabis industry for individuals and communities most adversely impacted by the enforcement of cannabis-related laws. In the interest of establishing a cannabis industry that is equitable and accessible to those most adversely impacted by the enforcement of drug-related laws, including cannabis-related laws, the legislature finds a social equity program should be created.

(2) The legislature finds that individuals who have been arrested or incarcerated due to drug laws, and those who have resided in areas of high poverty, suffer long-lasting adverse consequences, including impacts to employment, business ownership, housing, health, and long-term financial well-being. The legislature also finds that family members, especially children, and communities of those who have been arrested or incarcerated due to drug laws, suffer from emotional, psychological, and financial harms as a result of such arrests and incarceration. The legislature further finds that certain communities have disproportionately suffered the harms of enforcement of cannabis-related laws. Those communities face greater difficulties accessing traditional banking systems and capital for establishing businesses.

(3) The legislature therefore finds that in the interest of remedying harms resulting from the disproportionate

enforcement of cannabis-related laws, creating a social equity program will further an equitable cannabis industry by promoting business ownership among individuals who have resided in areas of high poverty and high enforcement of cannabis-related laws. The social equity program should offer, among other things, financial and technical assistance and license application benefits to individuals most directly and adversely impacted by the enforcement of cannabis-related laws who are interested in starting cannabis business enterprises.

NEW SECTION. Sec. 2. A new section is added to chapter 69.50 RCW to read as follows:

(1) Beginning December 1, 2020, and until July 1, 2028, marijuana retailer licenses that have been subject to forfeiture, revocation, or cancellation by the board, or marijuana retailer licenses that were not previously issued by the board but could have been issued without exceeding the limit on the statewide number of marijuana retailer licenses established in rule by the board, may be issued or reissued to an applicant who meets the marijuana retailer license requirements of this chapter.

(2) (a) In order to be considered for a retail license under subsection (1) of this section, applicants must be a social equity applicant and submit a social equity plan along with other marijuana retailer license application requirements to the board. If the application proposes ownership by more than one person, then at least fifty-one percent of the proposed ownership structure must reflect the qualifications of a social equity applicant.

(b) Persons holding an existing marijuana retailer license or title certificate for a marijuana retailer business in a local jurisdiction subject to a ban or moratorium on marijuana retail businesses may apply for a license under this section.

(3) (a) In determining the issuance of a license among applicants, the board may prioritize applicants based on the extent to which the application addresses the components of the social equity plan.

(b) The board may deny any application submitted under this subsection if the board determines that:

(i) The application does not meet social equity goals or does not meet social equity plan requirements;

(ii) The application does not otherwise meet the licensing requirements of this chapter; or

(iii) Additional marijuana retailer licenses are not needed to meet social equity goals in that city, town, or county.

(4) The board may adopt rules to implement this section. Rules may include strategies for receiving advice on the social equity program from communities the program is intended to benefit. Rules may also require that licenses awarded under this section be transferred or sold only to individuals or groups of individuals who comply with the requirements for initial licensure in the social equity plan under this section.

(5) For the purposes of this section:

(a) "Disproportionately impacted area" means a census tract or comparable geographic area that satisfies the following criteria, which may be further defined in rule by the board after consultation with the commission on African American affairs and other agencies and stakeholders as determined by the board:

(i) The area has a high poverty rate;

(ii) The area has a high rate of participation in income-based federal or state programs;

(iii) The area has a high rate of unemployment; and

(iv) The area has a high rate of arrest, conviction, and incarceration related to the sale, possession, use, cultivation, manufacture, or transport of marijuana.

(b) "Social equity applicant" means:

(i) An applicant who has at least fifty-one percent ownership and control by one or more individuals who have resided for at least five of the preceding ten years in a disproportionately impacted area; or

(ii) An applicant who has at least fifty-one percent ownership and control by at least one individual who has been convicted of a marijuana offense or is a family member of such an individual.

(c) "Social equity goals" means:

(i) Increasing the number of marijuana retailer licenses held by people from communities that have suffered a disproportionate number of marijuana arrests beginning January 1, 1988; and

(ii) Reducing accumulated harm suffered by individuals, families, and communities subject to disproportionate impacts from the historical application and enforcement of marijuana prohibition laws.

(d) "Social equity plan" means a plan that addresses at least some of the elements outlined in this subsection (5)(d), along with any additional plan components or requirements approved by the board following consultation with the task force created in section 5 of this act. The plan may include:

(i) A statement that the social equity applicant qualifies as a social equity applicant and intends to own at least fifty-one percent of the proposed marijuana retail business or applicants representing at least fifty-one percent of the ownership of the proposed business qualify as social equity applicants;

(ii) A description of how issuing a marijuana retail license to the social equity applicant will meet social equity goals;

(iii) The social equity applicant's personal or family history with the criminal justice system including any offenses involving marijuana;

(iv) The composition of the workforce the social equity applicant intends to hire;

(v) Neighborhood characteristics of the location where the social equity applicant intends to operate, focusing on the disproportionate historical impacts of marijuana prohibition; and

(vi) Business plans involving partnerships or assistance to organizations or residents with connection to populations with a history of disproportionate impact and harm related to enforcement of marijuana prohibition.

NEW SECTION. Sec. 3. A new section is added to chapter 43.330 RCW to read as follows:

(1) The marijuana social equity technical assistance competitive grant

program is established and is to be administered by the department.

(2) The marijuana social equity technical assistance competitive grant program must award grants on a competitive basis to marijuana retailer license applicants who are submitting social equity plans under section 2 of this act. The department must award grants primarily based on the strength of the social equity plans submitted by applicants but may also consider additional criteria if deemed necessary or appropriate by the department. Technical assistance activities eligible for funding under the marijuana social equity technical assistance competitive grant program include, but are not limited to:

(a) Assistance navigating the marijuana retailer licensure process;

(b) Marijuana-business specific education and business plan development;

(c) Regulatory compliance training;

(d) Financial management training and assistance in seeking micro loans; and

(e) Connecting social equity applicants with established industry members and tribal marijuana enterprises and programs for mentoring and other forms of support approved by the board.

(3) Funding for the marijuana social equity technical assistance competitive grant program must be provided through the dedicated marijuana account under RCW 69.50.540. Additionally, the department may solicit, receive, and expend private contributions to support the grant program.

(4) The department may adopt rules to implement this section.

Sec. 4. RCW 69.50.540 and 2019 c 415 s 978 are each amended to read as follows:

Concerning the sale or lease of manufactured/mobile home communities and the property on which they sit.

The bill was read the second time.

Representative Duerr moved the adoption of the striking amendment (1282):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature finds that:

(a) It is the policy of this state to encourage affordable housing ownership, including manufactured/mobile home community living.

(b) Manufactured/mobile home communities provide a significant source of homeownership opportunities for Washington residents. However, the increasing closure and conversion of manufactured/mobile home communities to other uses, combined with increasing manufactured/mobile home lot rents, low vacancy rates in existing manufactured/mobile home communities, and the extremely high cost of moving homes when manufactured/mobile home communities close increasingly make manufactured/mobile home community living insecure for manufactured/mobile home tenants.

(c) Many tenants who reside in manufactured/mobile home communities are part of low-income households and senior citizens and are, therefore, those residents most in need of reasonable security in the siting of their manufactured/mobile homes because such tenants experience adverse impacts on their health, safety, and welfare when forced to move due to closure, change of use, or discontinuance of manufactured/mobile home communities.

(2) It is the intent of the legislature to encourage and facilitate the preservation of existing manufactured/mobile home communities in the event of voluntary sales of manufactured/mobile home communities and, to the extent necessary and possible, involve manufactured/mobile home community tenants or an eligible organization, such as a nonprofit organization, housing authority, community land trust, resident nonprofit cooperative, or local government, in the preservation of manufactured/mobile home communities.
